Coffeemar B L U E T E C

A coffee... with style

This range represents the perfect combination of technological innovation and special features with an elegant and modern finishing. Available in different configurations, Coffeemar Bluetec stands out for its new aluminium boiler and its product selection touch keyboard, as well as for its striking new look and improvements in design, labels and lighting. It is the most versatile and reliable model, suitable for any location thanks to its innovative design with a finish of stainless steel and glass.

FEATURES

- Pressure valve in the brewing unit to keep constant pressure during the complete brewing cycle.
- Motorised water distributor without electrovalves.
- Aluminium boiler with resistor and capped probes, with no contact with the water (avoiding o-rings and calcium oxide formation).
- Two cup-dispenser models, depending on the cup diameter (65-67 mm or 67-69 mm).
- XL 46, 80 mm diameter cups, up to 350 ml capacity.
- Adjustable stir-stick dispenser, between 75 mm and 115 mm long.
- Self-cleaning of mixing bowls, product exit and grinder assembly: manual or automatic (programmable).
- Anti-steam sugar-adding system directly into the cup.
- Continuous temperature control of the water in the boiler.
- Braking system at collection drawer.
- Coffee bean grinder assembly (own module).
- Easy cleaning and maintenance of removable elements.

Coffeemar Bluetec XL 46, Coffee to go:

- Double coffee brewing unit, being able to dispense from both units at the same time, obtaining a final cup of up to 14 grams of coffee, in 350ml of water, dispensed in less than 25 seconds, or it can be configured to dispense two types of coffee.
- Delivery of lids for the cups, with the possibility of preselection and surcharge in price.

STRUCTURE

- Tempered glass front embedded in metal, with no access to the sides.
- Smudge-proof stainless steel finishing.
- Steel cabinet treated against corrosion and rust and vandal-proof lock with a crowbar-resistant door integrated into the structure.

CREDIT MANAGEMENT

- MDB payment systems ready, JF8 coin mechanism, BT11 billreader, cashless systems Jlink, or other compatible systems.

PROGRAMMING

- Onsite general programming using the machine keypad, by hand held terminal EasyFlahs or through PC computer.
- Data storage and stock control and accounting.

OPTIONS

- Self-feeding water kit (one or two 25L tanks, in the G546 and XL 46 models).
- Coffeemar Bluetec G546, Control Unit fitted to be connected to a Vision ES or ES Plus Vending machine.
- Screen on the upper part of the G546 model for videos and nutritional facts.
- Water filters: anti-scale or flavour.
- Customisable image.

A new dimension in which the image of the POS and the product quality are combined to completely satisfy the customer.
